Re: End-Of-Sale of the Vevo MD Imaging System

Dear Valued Customer,

FUJIFILM VisualSonics, Inc. (VSI) would like to thank you for being a longstanding customer. We are committed to providing the highest quality products and services, ultimately to empower ground-breaking research in the advancement of human health.

As of December 31, 2024, VSI has ceased offering the Vevo MD Imaging System for sale. Service and support for the Vevo MD Imaging System, associated UHF transducers, and other accessories, will continue until December 31, 2029, unless otherwise specified per local law or contractual agreement. Available support during this 5-year period includes:

- The option to purchase annual service contracts.
- Stocking of replacement parts where possible.
- Scientific Applications support regarding the use of the technology.

Transducers and other accessories for the Vevo MD Imaging System will be available for follow-up sales for a period of 2 years, through to December 31, 2026.

Moving forward, VSI will be bringing our unique ultra-high frequency transducers to another clinically approved ultrasound imaging platform. Stay in touch with your local VSI sales representative, or VSI directly, for further details.

As always, we appreciate your business and look forward to providing you with the best imaging tools to assist you in attaining your research goals.

Regards,

Greg Nesbitt
Vice President, Global High Frequency
