Re: End-Of-Sale of Vevo Vasc

Dear Valued Customer,

FUJIFILM VisualSonics, Inc. (VSI) would like to thank you for being a longstanding customer. We are committed to providing the highest quality products and services to our customers, ultimately to empower ground-breaking research into the advancement of human health.

As of January 01, 2025, VSI will cease offering Vevo Vasc Analysis Software for sale. Scientific Applications and Technical support for the use of Vevo Vasc in your research will continue until December 31, 2025 (12 months of support).

Moving forward, a robust pulse-wave velocity measurement tool was added to Vevo LAB as of V5.7.0. This tool is freely available in Vevo LAB, and may be used on acquired image data from any currently supported Vevo Imaging System. Other tools to support a range of vascular analysis are also available in Vevo LAB.

Please contact your local VSI sales representative, or VSI directly, for further details.

As always, we appreciate your business and look forward to providing you with the best tools to assist you in attaining your research goals.

Regards,

Greg Nesbitt
